

SHOWROOM VISIT CHECKLIST

This checklist shows many popular design features. Tick the ones that appeal to you and your family, then ask to see them when you visit any showrooms. You may need to ask the showroom consultant to point out some of the harder-to-find features that make a big difference to the way *your kitchen* works – instead of *you!* Add the items on this list to the Design Questionnaire when we meet for our briefing consultation.

CABINETRY FEATURES

- Double cutlery trays
- Pot drawers
